The Ministries of Finance and Planning and Administrative Development of the Palestinian National Authority (PA) have issued a major new document pertaining to the state and institution building program of the Thirteenth Palestinian Government that was adopted in August, 2009. The document, "[Palestine: Moving Forward, Priority Interventions for 2010](#) [3]," spells out priority interventions for the Palestinian government in the coming year, and includes cost estimates and funding status. Building on the August cabinet document, this detailed financial agenda will be an invaluable guide to what the Palestinian government seeks to accomplish in the coming months and how this can be supported financially, technically and politically by all those seeking to promote peace based on the creation of a Palestinian state alongside Israel.
